Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2016-8503; Airspace Docket No. 16-ASW-11]

Proposed Amendment of Class D and E Airspace for the following Texas Towns;

Houston Sugar Land, TX; Alice, TX; Bay City, TX; Brenham, TX; Burnet, TX;

Falfurrias, TX; Graford, TX; and Hamilton, TX, and Proposed Revocation of Class E

Airspace; Austin Horseshoe Bay Resort Airport, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class D and Class E surface area airspace at Sugar Land Regional Airport, Houston Sugar Land, TX. The FAA also proposes to modify Class E airspace extending upward from 700 feet above the surface at Kingsville Kleberg County Airport, Alice, TX; Bay City Municipal Airport, Bay City, TX; Brenham Municipal Airport, Brenham, TX; Burnet Municipal Airport-Kate Craddock Field, Burnet, TX; Brooks County Airport, Falfurrias, TX; Possum Kingdom Airport, Graford, TX; and Hamilton Municipal Airport, Hamilton, TX. Decommissioning of non-directional radio beacons (NDBs), cancellation of NDB approaches, and implementation of area navigation (RNAV) procedures have made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at these airports. This action also proposes to remove Class E airspace at Horseshoe Bay Resort Airport, Austin, TX, as controlled airspace is no longer needed. Additionally, the geographic coordinates at Bay City Municipal Airport, Brenham

Municipal Airport, and Brooks County Airport, as well as the name of Sugar Land Regional Airport (formerly Sugar Land Municipal/Hull Field) would be adjusted to coincide with the FAA's aeronautical database.

DATES: Comments must be received on or before **[INSERT DATE 45 DAYS FROM DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, D.C., 20590; telephone (202) 366-9826, or 1-800-647-5527. SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D airspace and Class E surface area airspace at Sugar Land Regional Airport, Houston Sugar Land, TX; amend Class E airspace extending upward from 700 feet above the surface at Kingsville Kleberg County Airport, Alice, TX; Bay City Municipal Airport, Bay City, TX; Brenham Municipal Airport, Brenham, TX; Burnet Municipal Airport-Kate Craddock Field, Burnet, TX; Brooks County Airport, Falfurrias, TX; Possum Kingdom Airport, Graford, TX; and Hamilton Municipal Airport, Hamilton, TX; and remove Class E at Horseshoe Bay Resort Airport, Austin, TX.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in

developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2016-8503/Airspace Docket No. 16-ASW-11.” The postcard will be date/time stamped and returned to the commenter.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA’s web page at <http://www.regulations.gov>.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the “ADDRESSES” section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX, 76177.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the ADDRESSES section of this document. FAA

Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying:

Class D airspace and Class E surface area airspace within a 5.8-mile radius of Sugar Land Regional Airport, Houston Sugar Land, TX, and updating the name of airport to coincide with the FAA's aeronautical database;

Class E airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Kingsville, Kleberg County Airport, Alice, TX, with an extension northwest of the airport from the 6.6-mile radius to 10.3 miles;

Within a 6.5-mile radius of Bay City Municipal Airport, Bay City, TX, and updating the geographic coordinates of the airport to coincide with the FAAs aeronautical database;

Within a 6.5-mile radius of Brenham Municipal Airport, Brenham TX, and updating the geographic coordinates of the airport to coincide with the FAAs aeronautical database;

Within a 6.6-mile radius of the Burnet Municipal Airport-Kate Craddock Field, Burnet, TX;

Within a 6.6-mile radius of Brooks County Airport, Falfurrias, TX, and updating the geographic coordinates of the airport to coincide with the FAAs aeronautical databases;

Within a 7.0-mile radius of Possum Kingdom Airport, Graford, TX, with extensions to the northeast of the airport from the 7.0-mile radius to 10.9 miles, and to the southwest of the airport from the 7.0-mile radius to 10.9 miles;

And within a 6.5-mile radius of Hamilton Municipal Airport, Hamilton, TX, with extensions to the north of the airport from the 6.5-mile radius to 9.4 miles, and to the south of the

airport from the 6.5-mile radius to 10.3 miles;

The Class E airspace area extending upward from 700 feet above the surface within a 6.5-mile radius of Horseshoe Bay Resort Airport, Austin Horseshoe Bay Resort Airport, TX, would be removed as the SIAPs have been cancelled and controlled airspace is no longer needed.

Airspace reconfiguration is necessary due to the decommissioning of NDBs, cancellation of NDB approaches, and implementation of RNAV procedures at the above airports. Controlled airspace is necessary for the safety and management of the standard instrument approach procedures for IFR operations at the airports.

Class D and E airspace designations are published in paragraph 5000, 6002, and 6005, respectively, of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the

criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
